

CHILD SAFETY

Although it is the responsibility of parents to ensure the safe arrival of their child/children at school we have set up a system to help ensure child safety.

If your child is going to be absent we ask that you notify school preferably before 9.30 am with the reason for absence. This procedure should be carried out for each day your child is absent.

We would also ask that you notify school if your child/children will be coming into school late and the reason for this.

The majority of our parents do phone school or send in letters for appointments but on the rare occasions when we receive no phone call or written message we take the following action. After the closure of registers at 9.20 am we will send a text message to your mobile phone requesting you to contact us with the reason for absence. If the school is not notified an UNAUTHORISED mark will be added.

If a child is absent for 2 or more days without any explanation then a home visit may be carried out.

We thank you for your help in this matter in trying to ensure the safety of all our children.
